Dr. S. E. Luria
Department of Biology
Massachusetts Institute of Technology
Cambridge 39, Massachusetts

Dear Luria:

I do ~~not~~ feel that it is a proper thing for geneticists to be concerned with the future of Cold Spring Harbor and to indicate our interest to Haskins. I believe a good method would be the one suggested by you, namely to write a joint letter to Haskins and suggest that he call together some advisory group.

Such a letter should be phrased carefully, since Haskins possibly has himself decided on an advisory group or has had advice. At present, we should stress our interest rather than our concern.

Best wishes,

Curt Stern
